著者:Kennelly, Steven J. 编

出版者:Springer-Verlag New York Inc.

出版时间:2007-8

装帧:HRD

isbn:9781402060779

With by-catch in fisheries becoming an ever more high-profile problem, this brilliant work could not be more timely. It contains contributions from the world's leading experts in by-catch reduction, who guide the reader through most aspects of the field. They examine the methodologies used to develop by-catch reduction techniques and provide new avenues for broadening such work. Case studies are provided that encompass most of the world's fishing techniques and regions.
