Explore, analyze, and elaborate on information you extract using ArcGIS(R) software with EXPLORING OCEAN ENVIRONMENTS: GIS INVESTIGATIONS FOR THE EARTH SCIENCES. This interactive investigation guide lets you tap the power of the ArcGIS(R)

software to explore, manipulate, and analyze large data sets. This guide emphasizes the visualization, analysis, and multimedia integration capabilities inherent to GIS. The GIS information has been preprocessed into maps and legends, and some procedures have been automated so you can focus on the science content.
