This new text offers an Excel focused approach to using statistics in business. All statistical concepts are illustrated with applied examples immediately upon introduction. Modern computing tools and applications are introduced, and the text

maintains a strong focus on presenting statistical concepts as applied in business - as opposed to providing programming methods used to find a mathematical solution. Interpretation is heavily emphasized, enabling students to take full advantage of Excel to develop and drive problem-solving skills.

-----  
冗长而没有逻辑的书……

-----  
只有结论,纯应用

-----  
写得很一般，真正的“纯应用”

-----  
【考完重标】废话连篇、干货无几。

-----  
非常认真读并做了每节课的预习复习note cards = . =
