著者:Harvey, Brian

出版者:Springer Verlag

出版时间:2006-11

装帧:HRD

isbn:9780387333304

This book provides an annual update on recent space launches, missions and results. The annual, written for both young and older space enthusiasts, provides a regular,

balanced review of all the world's major space programmes. It covers space exploration from a variety of angles: looking back at past missions, reviewing those currently under way and looking to those planned for the future. The ten invited contributions each year will cover a variety of topics within these areas. The book is for space enthusiasts from teens upwards through to professionals working in the worldwide space industry and journalists covering space issues.
