出版者:Dover Publications

出版时间:2003-1-23

装帧:Paperback

isbn:9780486428062

A pair of eminent Russian theoretical physicists offer a captivating view of the paradoxes inherent to the special theory of relativity. Written in a straightforward fashion, the text uses familiar objects (e.g., trains, rulers, and clocks) to illuminate the more subtle and elusive aspects of relativity. 23 illustrations. 1959 edition.
