For courses in Turfgrass Maintenance, Landscape Architecture, Turfgrass Pathology,

and Economic Entomology. This book is an up-to-date account of the current state of the art and science of turfgrass pest management. It is designed to serve as either a basic text for college students or a comprehensive reference for the professional turfgrass manager, including golf course superintendents, lawn care company personnel, park and cemetery officials, those responsible for maintaining turf on sports fields, airports, and along highways, seed and sod growers, and landscapers.
