著者:Sabin, John R. (EDT)/ Brandas, Erkki (EDT)

出版者:Academic Press Inc

出版时间:2006-12

装帧:精装

isbn:9780120348527

"Advances in Quantum Chemistry" presents surveys of current developments in this rapidly developing field that falls between the historically established areas of mathematics, physics, chemistry, and biology. With invited reviews written by leading international researchers, each presenting new results, it provides a single vehicle for following progress in this interdisciplinary area. This work contains publishes articles, invited reviews and proceedings of major international conferences and workshops. It is written by leading international researchers in quantum and theoretical chemistry. It highlights important interdisciplinary developments.
