著者:Enns, James T.

出版者:W W Norton & Co Inc

出版时间:2004-9

装帧:Pap

isbn:9780393977219

James T. Enns leads a lively tour through the current developments in the field, exploring the human visual experience as it relates to lines, colour and objects, but

also to time, space and imagination. The Thinking Eye, The Seeing Brain challenges readers 'to be open to a revolution in your own beliefs about sight and thought.' Seeing, we learn, is not something that happens in the eye, but in the brain.
