This Procedures Manual provides a documentation system which has been developed

by a practising CDM co-ordinator for use with the Construction (Design and Management) Regulations 2007.

It addresses the full range of obligations on all parties for compliance with the statutory requirements and features:

- * flow charts
- * checklists
- * model forms

The revised Third Edition of the Manual reflects the extensive changes to the CDM Regulations 2007, including:

- * the new role of CDM co-ordinator
- * wider and more onerous duties on clients
- * changes to the design process
- * wider requirements for competence
- * integration of duty holder roles

The Manual also takes account of the 2007 Approved Code of Practice. It will function as a control document for quality assurance purposes.
