A true companion to Tortora's Principles of Anatomy & Physiology, 11th Edition, this unique Illustrated Notebook is a tool for organized note taking in class and for review during study. Following the sequence in the textbook, each left-handed page displays an unlabeled black and white copy of every text figure. Students can fill in the labels during lecture or lab at the instructor's directions and take additional notes on the lined right-handed pages. Tortora's Principles of Anatomy & Physiology, 11th Edition, the highly-acclaimed, widely used book, provides a superb balance between structure and function, emphasizing the correlations between normal physiology and pathophysiology, normal anatomy and pathology, and homeostasis and homeostatic imbalances. The Eleventh Edition now fully integrates this exceptional text with a host of innovative electronic media, setting the standard once again for a rewarding and successful learning experience.
