

Introduction to Engineering

[Introduction to Engineering_下载链接1_](#)

著者:Jay B. Brockman

出版者:Wiley

出版时间:2008-04-25

装帧:Hardcover

isbn:9780471431602

In this groundbreaking new text, Jay Brockman helps students acquire the engineering mindset, providing them with the core knowledge and skills all engineers need to succeed. Through clear explanations and real-world examples—like how to provide water for rural communities in developing nations— Introduction to Engineering

teaches students to see the world through the eyes of an engineer, looking at how engineers apply science and technology to solve problems facing society today.
