

Light Associated Reactions of Synthetic Polymers

[Light Associated Reactions of Synthetic Polymers. 下载链接1](#)

著者:Ravve, Abe

出版者:Springer Verlag

出版时间:2006-6

装帧:HRD

isbn:9780387318035

This book combines theoretical explanations of the reactions of light and polymeric materials with development of light responsive polymeric materials for various practical applications. Photo associated reactions and light responsive materials have great potential to improve existing industrial processes, including capturing solar energy. This book presents a range of reactions and materials with some of the most exciting current and future applications.
