装帧:HRD

isbn:9780073302706

"Contemporary World Regional Geography" provides a current, balanced geographical study of world issues through analysis of nine world regions and the countries in each. It consistently integrates the themes of "global connections" and "local voices" and is structured so that within each chapter the global and local tensions are discussed, as well as economic, political, cultural, social, and environmental issues. Each chapter

follows the same framework, allowing students to easily make comparisons from one world region to the next.
