出版时间:2006-3

装帧:HRD

isbn:9780387284606

This book investigates the newly emerging interest to investigate and preserve cultural landscapes. It presents the historic, archaeological, ethnographic, and environmental traditions of cultural landscape study and the attempts to reconstruct and analyze the complex processes of cultural changes. It points to the benefits of interdisciplinary cooperation, which should involve an ecological approach with historical ecology, applied archaeology, and environmental planning.
