装帧:Pap

isbn:9781565232488

Geared toward the advanced beginner, this workbook teaches how to devise and build practical storage solutions for the home. Projects designed to incrementally increase

the skills of woodworkers are provided and accompanied by lists of the materials and supplies required for each task. A full-size pattern, which has been bound into the book with a perforated edge for easy removal, and photographs of each project are included. Patterns are provided for a recycling center, a coat rack, a pop-up coffee table, a CD holder, a calendar frame, curio shelving, a kitchen island, a potting bench, an end table, and a cedar wardrobe. Each project can be completed in a weekend.
