出版时间:2000-1

装帧:HRD

isbn:9780912456164

This is the most complete wild-flower book for Arkansas and also has great interest for surrounding states. Six-hundred species are described, accompanied by hundreds of color photographs. Text for each species appears next to its photograph for easy identification. The eight plant families represented are described as well as the structure of flowers and plants and the physiographic regions of Arkansas. The book also includes a glossary of scientific terms and an index for all species.
