著者:Brabec, Thomas/ Kapteyn, Henry

出版者:Springer Verlag

出版时间:2008-9

装帧:HRD

isbn:9780387400778

Due to the rapid progress in laser technology a wealth of novel fundamental and applied applications of lasers in atomic and plasma physics have become possible. This book focuses on the interaction of high intensity lasers with matter. It reviews the state of the art of high power laser sources, intensity laser-atom and laser-plasma interactions, laser matter interaction at relativistic intensities, and QED with intense lasers.
