The Creation of Flowing Forms in Water and Air Theodor Schwenk Translated by Olive Whicher & Johanna Weigley More than ever before, today we need "water consciousness" and we can begin with this essential and classic book on water as the universal bearer of living, formative processes. Beginning with simple flowing phenomena of water and air, Schwenk gradually builds up, with the help of marvelous photographs and drawings, the "letters" of an alphabet that will allow us to "read" the

living meaning of water. The spiritual, formative processes are gradually brought to light, and we come to recognize the Creative Word in the universe. Fully illustrated.
