出版者:Springer Verlag

出版时间:2006-10

装帧:Pap

isbn:9780735403581

This comprehensive compendium provides information on nearly every U.S. doctoral

program in physics and astronomy, plus data on most major master's programs in these fields. Information on many major Canadian programs is also included. In addition, the Graduate Programs directory lists a substantial number of related-field departments, including materials science, electrical and nuclear engineering, meteorology, geophysics, and oceanography.
