If you like to tweak, disassemble, recreate, and invent cool new uses for technology,

you'll love "MAKE", our project-based quarterly for the inquisitive do-it-yourselfer. Get ready to play when "Make Volume 08", our "Toys and Games" issue, hits the stands. You'll learn how to build a wind-up bird that really flies how to restore an old pinball machine, and learn the secret history of the world's best-selling computer game from Myst's co-creator. You'll also meet a well-known toy inventor and learn how to make molds and casts with MythBusters star Adam Savage.
