# AD-Hoc Networks

[AD-Hoc Networks_下载链接1_](#)

著者:Hekmat, Ramin

出版者:Springer Verlag

出版时间:2006-9

装帧:HRD

isbn:9781402051654

This book provides an original graph theoretical approach to the fundamental properties of wireless mobile ad-hoc networks. This approach is combined with a realistic radio model for physical links between nodes to produce new insight into network characteristics like connectivity, degree distribution, hopcount, interference and capacity. The book establishes directives for designing ad-hoc networks and sensor networks. It will interest the academic community, and engineers who roll out ad-hoc and sensor networks.
