

# Studies of Cave Sediments

[Studies of Cave Sediments 下载链接1](#)

著者:Sasowsky, I. D. 编

出版者:Springer Verlag

出版时间:

装帧:Pap

isbn:9781402053269

This is the first comprehensive volume on cave sediments. It provides case-studies from around the world, gives guidance on appropriate applications of techniques, and their limitations, synthesizes methods that can be used to decipher complex deposits, and includes chemical deposits (speleothems) as well as clastic sediments. This book is for any geoscience researcher or student with interests in climate change, paleohydrology, karst geology, and sedimentology.
