出版时间:2007-1

装帧:Pap

isbn:9780486456072

One of science's greatest intellects examines how people and animals display fear, anger, and pleasure. This highly readable 1872 study was based on Darwin's personal observations, most of which were proven by later scientific surveys. Abounding in anecdotes and literary quotations, it continues to inspire and inform contemporary research. 21 figures, 7 plates.
