Imperial Intelligence couldn't find them, the Imperial Fleet couldn't catch them, and local defenses couldn't stop them. It seemed the planet-wrecking pirates were invincible. But they made a big mistake when they raided ex-commando leader Alicia DeVries' quiet home work, tortured and murdered her family, and then left "her" for dead. Alicia decided to turn "pirate" herself, and stole a cutting-edge AI ship from the Empire to start her vendetta. Her fellow veterans think she's gone crazy, the Imperial Fleet has shoot-on-sight orders. And of course the pirates want her dead, too. But Alicia DeVries has two allies nobody knows about, allies as implacable as she is: a self-aware computer, and a creature from the mists of Old Earth's most ancient legends. And this trio of furies won't rest until vengeance is served

regenus. And this tho or fulles worth rest until verigeance is served.
