THE HISTORY OF MIDDLE-EARTH

Poems and prose, maps and chronologies, detours and diversions along the road to Middle-earth . . . Christopher Tolkien has gathered archival materials that his late father, J. R. R. Tolkien, used to create the world and the history behind his classic stories.

THE EVOLUTION OF A WORLD

This fourth volume of The History of Middle-earth presents early versions of those first tales, from the creation myth to the fall of Morgoth. Writings include a chronology of the events in Beleriand, the first Silmarillion map, and the only known description of the physical nature of Middle-earth's universe. Detailed annotations highlight changes ranging from the spelling of Elvish names to pivotal emendations whose effects reach even to the war of the ring.

The Shaping of Middle-earth presents a solid framework by which to trace the development of the early lore of Middle-earth. It is a truly indispensable reference work for those familiar with the history of that endlessly beloved land--and fascinating reading for those just entering that world.

评论

记录了中土世界如何一步一步形成，最后演变为宝钻和未完故事里的故事的，相比之下前几稿确实不如最终版细腻完美，但是故事梗概和主要人物都已经基本就绪了。居然还写了古英语版，老托太厉害
