Living in an altered past that never saw the end of the Great Depression, Jeannine, a librarian, is waiting to be married. Joanna lives in a different version of reality: she's a 1970s feminist trying to succeed in a man's world. Janet is from Whileaway, a utopian earth where only women exist. And Jael is a warrior with steel teeth and catlike retractable claws, from an earth with separate-and warring-female and male societies. When these four women meet, the results are startling, outrageous, and subversive.

最后五十页真是神转折太高能了！但实话说小说本身并没有课上讨论的内容以及sociop

olitical影射有趣。不过Joanna能写出这么绕的东西自己还不晕真的是好厉害！

笔力惊人

No intriguing storyline but the message is worth chewing.

七零年代女性主义科幻重要代表作，嬉笑怒骂，挺过瘾的一本书。

很不一样的sci-fi

I don't mind to read avantgard novels, but this one is truly a mess in terms of story telling. The switching of perspective is frequent and author's preference of first person perspective makes it really hard to tell who is talking. The reason for me to give it 3 stars is for its feminist thinking.
