For Student Success and Career Development, or Critical Thinking courses. Written by two of the leading experts in critical thinking, this book focuses on an integrated, universal concept of critical thinking that is both substantive and applicable to any and

every situation in which human thinking is necessary. It provides students with the basic intellectual tools needed for life-long learning, helping them understand the mind and how its three functions - thinking, feeling, motivation - influence and are influenced by one another. This book fosters the development of fair-minded critical thinking.
