Nearly one million people have been touched by the stories in the first edition of Chicken Soup for the Nurse's Soul. Now this second edition ministers to millions more. Most people don't become nurses because of the pay, working conditions, or the convenient hours. Men and women become nurses because they want to make a difference in the lives of others through the use of their compassionate skills and hard work. Chicken Soup for the Nurse's Soul, Second Dose, underscores why nurses enter the profession . . . and why they stay. This collection of true stories encourages, uplifts, and honors nurses; reenergizing them with hope, health, and healing during challenging times. Through laughter and tears, nurses share their memories and tales, inspiring and honoring one another as they continue their journey. You will be moved by the heartwarming revelations of nurses who have just started out in the field, as well as by veteran nurses who share their experiences of making a difference in the lives of their patients.
