出版时间:2005-6

装帧:Pap

isbn:9781572243705

A clinical neuropsychologist and a recognised memory expert present a fun and

easy-to-use collection of puzzles, exercises, and fascinating facts designed to supercharge memory and foster amazing mental agility. Unlike many other memory books available, The Memory Doctor is backed by hard science and clinical research into the function of memory. Every fact, tip and trick is supported by the most current and accurate information available.
