My name is Dante Lee, and I am 24-years old. I have a Bachelors degree in Computer Science, which I earned from Bowie State University in 2002. I was the only person in the school's 100-year existence to graduate from a 4-year program in three years - with Honors. While in college at the age of 19, I founded my first company - an urban marketing and public relations firm called Diversity City Media (www.diversitycity.com). It doesn't matter how small you are, you CAN achieve your goals. We are all small, but by thinking big - we change the world. It has been done before, and it can be done again - This time by you.
