Before you can use what you've got to get what you want, you have to know what you've got. The business world is full of people who are searching for something--the next great idea, the sure-fire marketing plan, the toy every kid has to have, the gadget without which no adult can live. They're looking so hard for the gold at the end of the rainbow that they often don't see the diamonds glittering in their hands. Whatever qualities you have, no matter how limited or broad they may be in your own mind, veteran corporate executive Marilyn Tam has set out to show everyday people how to use what they've got for both personal and professional success. Tam has always been passionate about what she wants in life. Passion, along with her four basic principles and "using what she's got," enables her to "get what she wants" out of life. Let her show you. Check out *How to Use What You've Got to Get What You Want*, now
