出版时间:2006-8

装帧:Pap

isbn:9780742544239

This popular, highly regarded, and comprehensive book synthesizes pertinent theories and evidence about diverse conflicts. Kriesberg examines the strategies that partisans and intermediaries can use to minimize the destructiveness of these conflicts. Not only does he examine large-scale forces that affect the various stages of conflict, but also the elements that contribute to constructive transformations at each stage. The diverse conflicts discussed are; the American civil rights struggle, the struggle for women's rights, apartheid in South Africa, labor-management relations, Palestinian-Israeli relations, protecting the environment, the Cold War, and countering terrorism, as well as conflicts in Northern Ireland, Chiapas, Mexico, and Sri Lanka. In addition to updating the conflicts examined in earlier editions, this new edition examines current issues, pertaining to ethical concerns, ideological and religious developments, and the changing global role of the United States.
