'It [Urban Regeneration] Should make life somewhat easier for practitioners and will offer a further stimulus to the development of taught courses in the not-so-gentle art of regeneration' - Urban Studies Providing students and practitioners with a detailed overview of the key theoretical and applied issues, this book is a comprehensive and integrated primer on regeneration. The various chapters: review the history and context of urban regeneration; consider funding implications; look at environmental, social and community issues, as well as employment, education and training; focus on managing urban regeneration; consider land use issues; and discuss monitoring and evaluation. The book concludes with a comparative analysis, with examples from America and Europe, and a discussion of future trends. The book represents the first systematic overview of urban regeneration in one volume and is set to become the standard reference work. As such, it will be required reading for practitioners involved in regeneration, and students of urban studies, planning, architecture, and estate management.

主要以西方国家二战到21世纪之间的城市更新内容为主，介绍理论渊源、政策演变和一些案例吧。作为课程参考文献要求只是读intro部分，表示文字相当晦涩，就是绕弯弯，但是的确是给予UR这个议题比较扎实的理论根基，但是我是没读完，也没有继续读的欲望。历史回溯的角度太多，然后语境较为不同，对我来说“没有什么用”。
