isbn:9780761929390

Boot camps have been a subject of much controversy in the corrections field and this

book deals with the issues in a forthright manner representing the most up-to-date, comprehensive, and rigorous assessment of correctional boot camps in print. Going beyond cursory examinations of effectiveness it takes a much deeper approach to a greater variety of issues. This book will act as a resource guide containing many of the most cited findings on boot camps drawn from a variety of sources and covering male, female, juvenile, and adult programs from across the US.
