著者:Keith Faulks

出版者:NYU Press

出版时间:2000-3-1

装帧:Paperback

isbn:9780814727096

"... an excellent introductory text."--Robert Jackall, Williams College "This is an extremely well-written and engaging book. It takes an upbeat and argumentative style that brings the subject matter to life ... It strikes the right balance between covering the core theoretical and conceptual issues associated with the subject while also adopting a central thesis that gives structure to the field and stimulates further enquiry."--Paul Connolly, University of Ulster "What is the relationship between the state and civil society? Which institutions truly wield power in the modern world? Keith Faulks tackles these questions as he introduces the key conceptual debates and approaches in contemporary political sociology. Important and topical issues including globalization, the rise of new social movements, neo-liberalism, citizenship, political culture and political participation are explored alongside critiques of key sociologists such as Giddens, Beck and Etzioni. This is the definitive introduction to the key processes that are changing the nature of politics and society in the modern world. The focus is on clarity, accessibility, and the needs of the student: boxes and charts are used to highlight key facts and figures, and a guide to further reading is included to encourage further exploration of this fascinating subject."

书评

此书使我对“民主”这个词汇的印象从朦胧到隐约看到一些框架。
民主主要有两层含义：参与和竞争。参与是施行普选，让公民真正有机会参与到政治生活中。竞争是指多党制，持有不同政见者能够在一个开放、包容的环境中合法竞争，争取领导权。民主建立的途径有很多种。从动力来源...
