

Spatial Divisions of Labor

[Spatial Divisions of Labor 下载链接1](#)

著者:Massey, Doreen

出版者:Routledge

出版时间:1995-8

装帧:Pap

isbn:9780415912969

The first edition of "Spatial Divisions of Labor" rapidly became a classic. Yet, while being praised, the book was also controversial. Debate still rages over some of the questions Doreen Massey provoked--the nature of theory, the importance of contingency and uniqueness, the relationship of Marxism. This second edition addresses these controversies, and also reflects on other debates which have taken place over the last decade. It contains a new first chapter and a lengthy additional concluding essay in which Massey takes up the issues of the book's relation to Marxism, its position on explanation, its argument about the conceptualization of social space and its relation to gender and feminism.
