著者:Graham Fairclough

出版者:Routledge

出版时间:2007-12-20

装帧:Paperback

isbn:9780415372862

This resource is a much-needed support to the few textbooks in the field and offers an excellent introduction and overview to the established principles and new thinking in cultural heritage management. Leading experts in the field from Europe, North America and Australia, bring together recent and innovative works in the field. With geographically and thematically diverse case studies, they examine the theoretical framework for heritage resource management. Setting significant new thinking within the framework of more established views and ideas on heritage management, this reader re-publishes texts of the past decade with an overview of earlier literature and essays that fill the gaps in between, providing students of all stages with a clear picture of new and older literature. A helpful introduction sets out key issues and debates, and individual chapter introductions and reading lists give a background collection of key works that offer ideas for the development of thought and study. With good coverage of major issues and solutions in Britain, the USA and Australia, "The Heritage Reader" will appeal to students internationally across the English-speaking world, and will stand proud as a key guide to the study and practice of this major archaeological sector.

### 作者介绍:

Graham Fairclough is currently Head of the Characterisation Team at English Heritage.

Rodney Harrison is a lecturer in heritage studies at The Open University and an adjunct research fellow at the Centre for Cross-Cultural Research at the Australian National University.

John H Jameson Jnr. is a senior archaeologist and Archaeology Education and Interpretation Program Manager with the U.S. National Park Service's Southeast Archaeological Center in Tallahassee, Florida.

John Schofield works for English Heritage in the Characterisation Team and is also Head of Military Programmes.
