isbn:9780195425000

This is a core text for courses in social problems. Using a strong Canadian perspective, it examines the social dynamics and consequences of social problems (such as unemployment, poverty, global inequality) through the lens of the main sociological paradigms. It takes a broad approach and examines the social construction of social problems and the impact of social problems on individual and societal health. Possible solutions for individuals and society at large are examined.

评论

结构有点散，不深入，无惊喜。

textbook 这本书算是入门级教材 比较简单
