This upbeat, very useful resource guide will give young women everything they need to start exploring and planning a career in science, math, or technology. Part I introduces readers to the many exciting career opportunities available in the sciences and provides specific strategies for planning for a future career in these areas. Part II recounts true stories of girls and young women in the sciences, detailing how they got involved and what they have accomplished. Part III offers timelines of extraordinary women throughout history, inspiring quotations, a list of Web sites specifically geared toward women in the sciences, suggestions for science-oriented computer software, and many other recommended resources. If you have an interest in science, this excellent guide, full of useful information, will start you on the path toward realising your career dreams.
