著者:Kath Weston

出版者:Columbia University Press

出版时间:1997-10

装帧:Pap

isbn:9780231110938

This classic text, originally published in 1991 and now revised and updated to include a new preface, draws upon fieldwork and interviews to explore the ways gay men and lesbians are constructing their own notions of kinship by drawing on the symbolism of love, friendship, and biology.

性别研究领域难得不晦涩的著作也是queer kinship的经典作品之一基于人类学研究的分析由于有了案例和访谈记录的支撑显得真实详尽甚至打动人心遗憾的是全书的视角还是有一定的局限性尤其是在酷儿家庭和血缘家庭的定义方面没有跳出对立思维

写毕业论文的时候念的Like erotic relations, bonds symbolized by blood prove terminable precisely because they are selectively perpetuated rather than 'naturally' given. A degree of choice always enters into the decision to count (or discount) someone as a relative

families we choose主要的几个方面: 1.脱离原来的家庭建立自己的"家庭"2."家人"的范围可能是好朋友,也可能是ex 3.其他需要做选择的一些事,比如怎么要孩子。可以看出,这并非基于明确变量的分类,在families we choose/biology family的分类中2是其核心,但是这个论点却不见得是成立的。

我喜欢Kath Weston

虽然她这本书偏向性很强,但是真是难得的好文笔。

书评

Familial relationship is widely understood as unbroken, natural, inherited blood ties among family members and therefore its legitimacy seems to lie in heterosexual intercourse and biological procreation. However, in her book Families We Choose (1997), K...
