isbn:9780856687471

More than twenty years from the publication of *Trademarks on Greek Vases*, this *Addenda* brings up to date the evidence from finds, improving on the cataloguing of the original, and adding in newly discovered examples, many sadly having surfaced via

the antiquities market. It contains a completely new catalogue of finds, as well as supplementary text. It is richly illustrated with line drawings of the marks and photographs of several of the vases.
