* Updates include discussion of major initiatives such as the Millennium Development Goals, (MDG) to eliminate global poverty * Examines changes in international politics and approaches to global terrorism following the US-led military operations in Afghanistan and Iraq* Extensively revised facts and figuresThe seventh edition of this perennial stalwart of the Kumarian Press list continues the discussion of the "new American hegemony" and the "war on terror" that began with the previous edition. In particular, Isbister addresses changes in international politics and the impact on the global order of the US-led military operations in Afghanistan and Iraq. The author also focuses on major initiatives, such as the UN's Millennium Development Goals, to confront the issue of world poverty. As with all editions of this vibrant text, Isbister writes with clarity and passion, not only about failed promises, but about hope, human potential, and the belief that a just and equitable world system is attainable.
