Changing trends in fashion have always reflected large-scale social and cultural changes. Changing Fashion presents for the first time a multi-disciplinary approach to examining fashion change, bringing together theory from fashion studies, cultural studies, sociology, psychology and art history, amongst others. Ideal for the undergraduate student of fashion and cultural studies, the book has a wide range of contemporary and historical case material which provides practical examples of trend analysis and change, from the art deco textile designs of Sonia Delaunay to the chameleonic shifts in Bob Dylan's appearance over time. Key issues in fashion and identity, such as race, gender and consumption are examined from different disciplinary angles to provide a critical overview of the field. Changing Fashion provides a concise guide to the main theories across disciplines that explain how and why media, clothing styles, and cultural practices fall in and out of fashion.

## 评论

有用的理论书，概括性强。最终并不是整合出一个Fashion Change理论，而是找各个经典理论间的共同点。所以说内容并不激进新颖，但条理清晰。当然，理论并不是拿来直接用的，只能帮助你更好地思考。
