Why is there so much talk of a "crisis" of masculinity? How have ideas of manhood been transformed by feminism? Does feminism hold the key to the development of more egalitarian forms of masculinity? *Masculinity Studies and Feminist Theory* addresses central questions about the analysis and construction of masculinity in contemporary society. The volume examines the ways male privilege and power are constituted and represented and explores the effect of such constructions on both men and women. With subjects ranging from Robert Bly's *Iron John* to Tom Hank's "niceness," this collection overturns old paradigms about identity, victimization, and dominant and alternative forms of masculinity to advance new dialogues between masculinity studies and feminist theory. Looking particularly at literature, film, and classroom practices, *Masculinity Studies and Feminist Theory* links the analysis of masculinities with feminism's ethical and political agenda for the future. Its authors share a conviction that such a link not only reveals the persistence, now more subtle and varied, of male entitlement but also promises to create an enriched and

reinvigorated feminism for a new century.
