This text argues that primates, including the earliest members of the human family, have evolved not as hunters but as the prey of any number of predators, including wild cats and dogs, hyenas, snakes, crocodiles and even birds of prey.

作者介绍:

Donna L. Hart is a longtime professional in wildlife conservation and teaches in the Department of Anthropology at the University of Missouri-St Louis.

Robert Wald Sussman teaches at Washington University-St Louis and is recent editor of American Anthropologist.
