In this timely work, Bird traces the history of biracial and tri-racial people in the United States, and in European families and events. She presents the personal traumas and victories of those who struggle for recognition and acceptance in light of their racial backgrounds, including celebrities such as golf expert, Tiger Woods, who eventually quit trying to describe himself as Cablanasin, a mix including Asian and African American. Bird examines current events, including the National Mixed Race Student Conference, and the push to dub this Generation MIX. And, she examines how American demographics, government, and society are changing overall as a result. As an added bonus, the book includes a guide to tracing your own racial roots.
