IN SEARCH OF THE INDO-EUROPEANS is essential reading for those interested in the

people who spoke the ancestor of most tongues of Europe and western Asia. While scholars have carefully reconstructed a proto-language, the identity of its speakers and their geographical origin remain a mystery, and J.P. Mallory shows what is currently thought in the field.

评论

An even-handed and sophisticated book from both the linguistic and the archaeological sides. Ready to acknowledge the speculative nature of many arguments but no serious flaws in using the linguistic evidence.

我想喝Soma.

通俗易懂。
