In 1983, Jane Bernstein had everything she ever wanted: a healthy four-year-old daughter, Charlotte; a happy marriage; a highly praised first novel; and a brand new baby, Rachel. But by the time Rachel was six weeks old, a neuro-ophthalmologist told Jane and her husband that their baby was blind. Although there was some hope that Rachel might gain partial vision as she grew, her condition was one that often resulted in seizure disorders and intellectual impairment. So began a series of medical and emotional setbacks that were to plague Rachel and her parents and strain their marriage to the breaking point. Spanning the first four years of Rachel's life, "Loving Rachel" is a heartbreaking chronicle of a marriage and a compelling story of parental love told with searing honesty and surprising humour.
