著者:Cristofalo, Vincent J. (EDT)/ Adelman, Richard, Ph.D. (EDT)

出版者:Springer Pub Co

出版时间:2001-11

装帧:HRD

isbn:9780826114488

Presenting the latest research in the biology of aging, this volume addresses important theoretical issues focusing on the basis for why humans live as long as they do. Expert authors combine three general paradigms of aging research: demographic studies, evolutionary studies, and studies of biological mechanisms. Topics explored include: Why does aging occur? Cellular aging Models in aging research Modern approaches to the mechanisms of aging The genetics of behavioral aging
