'Michael Handel has assembled an authoritative and wide-ranging collection of key

articles in the organizations field, and complements these papers with a terrific critical survey of the literature. His introductory essays will benefit both students and researchers alike. This collection is a real service to the field' - Walter W Powell, Stanford University. This volume of primary readings and overview essays provides a comprehensive introduction to the sociology of organizations. The readings represent a wide range of theoretical perspectives and substantive topics. Most readings are either classics in the field or works that are widely used and cited. In clear prose the section introductions explain key terms and concepts, provide illustrations, and summarize debates and related research in a brief overview essay. The completeness of the section introductions means this book can be used as either a supplementary reader or as a stand-alone text.

算是了解组织社会学极好的文献集和了，可惜节选的太厉害有时候词不达意，本身逻辑主线略模糊，没有参考的话很容易lost。就文章质量而言每一篇都不错，但在econ大潮下许多文献分析方法实在落后或者简单（顺便纪念这个夜晚20171030）。
